Center of Gravity Laura McNeill

The truth could cost her everything.

Her whole life, Ava Carson has been sure of one thing: she doesn't measure up to her mother's expectations. So when Mitchell Carson sweeps into her life with his adorable son, the ready-made family seems like a dream come true. In the blink of an eye, she's married, has a new baby, and life is wonderful.

Or is it?

When her picture-perfect marriage begins unraveling at the seams, Ava convinces herself she can fix it. It's temporary. It's the stress. It's Mitchell's tragic history of loss.

If only Ava could believe her own excuses.

Mitchell is no longer the charming, thoughtful man she married. He grows more controlling by the day, revealing a violent jealous streak. His behavior is recklessly erratic, and the unanswered questions about his past now hint at something far more sinister than Ava can stomach. Before she can fit the pieces together, Mitchell files for divorce and demands full custody of their boys.

Fueled by fierce love for her children and aided by Graham Thomas, a new attorney in town, Ava takes matters into her own hands, digging deep into the past. But will finding the truth be enough to beat Mitchell at his own game?

Center of Gravity weaves a chilling tale, revealing the unfailing and dangerous truth that things—and people—are not always what they seem.

From reader reviews:

Marlene Turner:

Do you one among people who can't read enjoyable if the sentence chained in the straightway, hold on guys this specific aren't like that. This Center of Gravity book is readable by simply you who hate the perfect word style. You will find the info here are arrange for enjoyable looking at experience without leaving possibly decrease the knowledge that want to provide to you. The writer connected with Center of Gravity content conveys thinking easily to understand by lots of people. The printed and e-book are not different in the written content but it just different such as it. So , do you even now thinking Center of Gravity is not loveable to be your top collection reading book?

Patti Metivier:

Reading can called thoughts hangout, why? Because while you are reading a book mainly book entitled Center of Gravity the mind will drift away trough every dimension, wandering in each aspect that maybe not known for but surely can be your mind friends. Imaging every word written in a book then become one application form conclusion and explanation that maybe you never get just before. The Center of Gravity giving you yet another experience more than blown away your thoughts but also giving you useful data for your better life within this era. So now let us explain to you the relaxing pattern the following is your body and mind will probably be pleased when you are finished examining it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

Charles Brewster:

This Center of Gravity is great reserve for you because the content which is full of information for you who all always deal with world and have to make decision every minute. This book reveal it details accurately using great coordinate word or we can say no rambling sentences inside. So if you are read the idea hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but tough core information with beautiful delivering sentences. Having Center of Gravity in your hand like having the world in your arm, info in it is not ridiculous a single. We can say that no book that offer you world in ten or fifteen moment right but this guide already do that. So , this can be good reading book. Heya Mr. and Mrs. active do you still doubt that?

David Dozier:

Do you like reading a guide? Confuse to looking for your favorite book? Or your book was rare? Why so many concern for the book? But almost any people feel that they enjoy regarding reading. Some people likes studying, not only science book but in addition novel and Center of Gravity or others sources were given understanding for you. After you know how the truly amazing a book, you feel desire to read more and more. Science guide was created for teacher or perhaps students especially. Those textbooks are helping them to increase their knowledge. In other case, beside science guide, any other book likes Center of Gravity to make your spare time far more colorful. Many types of book like this.
