Color by Number: Understanding Racism Through Facts and Stats on Children Art Munin

"For those who haven't given much thought to race matters, this volume could serve as an inoculation against the twisted political siren song of the far-right, providing sufficient knowledge so as to weaken the appeal of those who would manipulate their racial fears, anxieties and insecurities, or try and deny the reality of racial inequality so as to push a colorblind – and therefore, injustice-blind – agenda. And for those already committed to racial equity and justice, the contents herein could be even more important: providing us with the factual information needed to go forth and mobilize others to the cause, not to mention reminding us of just how important is the task which lay ahead. I welcome this addition to the literature already extant on race and racism. It is long overdue."?Tim Wise, Author, *White Like Me* and *Dear White America*

Through the cumulative effect of official statistics rather than the more usual reliance on anecdote – by taking a “show me the numbers!” approach – this book will open minds, start conversations, and even prompt readers to take action.

Then you are having problem with the book when compared with can satisfy your short space of time to read it because all this time you only find guide that need more time to be read. Color by Number: Understanding Racism Through Facts and Stats on Children can be your answer because it can be read by an individual who have those short extra time problems.

Julie Long:

As a student exactly feel bored in order to reading. If their teacher asked them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's spirit or real their pastime. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Color by Number: Understanding Racism Through Facts and Stats on Children can make you experience more interested to read.
