Gastrointestinal Imaging Cases (McGraw-Hill Radiology) Stephen Anderson, Christine Menias, Jorge A. Soto

A unique case-based approach to learning how to interpret gastrointestinal images

Gastrointestinal Imaging Cases features more than 150 gastrointestinal cases grouped according to organ system. Emphasizing clinical application, each case includes presentation, findings, differential diagnosis, comments, pearls, and numerous images. The book offers an efficient, systematic, and visual approach to help you better understand gastrointestinal imaging and sharpen your diagnostic skills. Covering a wide range of general clinical topics of interest to practicing imaging clinicians, *Gastrointestinal Imaging Cases* covers the liver, biliary, pancreas, esophagus, gastroduodenal, small bowel, colorectal, and omentum, mesentery, abdominal wall, and peritoneum.

The book's easy-to-navigate organization is specifically designed for use at the workstation. The concise, quick-read text, numerous images, and helpful pearls speed and simplify the learning process.

FEATURES:

- Organ-specific organization
- More than 975 multi-modality images
- More than 150 classic case presentations with a strong focus on differential diagnosis
- Covers a wide range of clinical topics
- Consistent chapter organization

ABOUT THE MCGRAW-HILL RADIOLOGY SERIES

This series offers indispensable workstation reference material for the practicing radiologist. Within this series is a full range of practical, clinically relevant works that are divided into three categories:

- **Patterns:** Organized by modality, these books provide a pattern-based approach to constructing practical differential diagnoses.
- **Variants:** Structured by modality as well as anatomy, these graphic references aid the radiologist in reducing false positive rates.
- **Cases:** Classic case presentations with an emphasis on differential diagnoses and clinical context.

From reader reviews:

Vincent Humphreys:

People live in this new time of lifestyle always attempt to and must have the spare time or they will get lots of stress from both day to day life and work. So , if we ask do people have spare time, we will say absolutely sure. People is human not just a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer can unlimited right. Then ever try this one, reading guides. It can be your alternative with spending your spare time, often the book you have read is definitely Gastrointestinal Imaging Cases (McGraw-Hill Radiology).

Keith Lugo:

Reading a book to be new life style in this year; every people loves to study a book. When you go through a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what types of book that you have read. If you wish to get information about your analysis, you can read education books, but if you want to entertain yourself read a fiction books, this sort of us novel, comics, and soon. The Gastrointestinal Imaging Cases (McGraw-Hill Radiology) provide you with new experience in studying a book.

Judith Ellis:

Many people spending their time frame by playing outside with friends, fun activity using family or just watching TV all day every day. You can have new activity to pay your whole day by reading a book. Ugh, you think reading a book can really hard because you have to bring the book everywhere? It alright you can have the e-book, getting everywhere you want in your Touch screen phone. Like Gastrointestinal Imaging Cases (McGraw-Hill Radiology) which is obtaining the e-book version. So , why not try out this book? Let's notice.

Mathew Casillas:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's soul or real their passion. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that looking at is not important, boring as well as can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Gastrointestinal Imaging Cases (McGraw-Hill Radiology) can make you experience more interested to read.
