Introduction to the Hebrew Bible John J. Collins

John J. Collins' *Introduction to the Hebrew Bible* is one of the most reliable and widely adopted critical textbooks at undergraduate and graduate levels alike, and for good reason. Enriched by decades of classroom teaching, it is aimed explicitly at motivated students regardless of their previous exposure to the Bible or faith commitments. Collins proceeds through the canon of the Old Testament and the apocrypha, judiciously presenting the current state of historical, archaeological, and literary understanding of the biblical text, and engaging the student in questions of significance and interpretation for the contemporary world. The second edition has been revised where more recent scholarship indicates it, and is now presented in a refreshing new format.
