Joseph P. Farrell

In this third and final book of the Giza Death Star trilogy, Physicist Farrell recapitulates the function of the 10,000-year-old Giza military complex and recounts the final destruction of this gigantic machine--a machine that was destroyed by a great explosion within. With the destruction of the Giza military complex the world was plunged back into the stone age! The Giza Death Star Destroyed is a fantastic and technical look at:

- \* Solar system catastrophism vs. interplanetary war
- \* The destruction of Krypton
- \* An ancient Babylonian text and a planet-busting scalar weapon
- \* The connection between Mars, the Flood, Secret Societies, and Giza
- \* The tentative identity of the Sphinx
- \* Why the Sphinx is in what was, in truth, a very ancient military compound
- \* Why the Sphinx is known as the Father of Terrors
- \* The loss, and possible survival, of the ancient objects of power
- \* The connection between the advanced physics behind the Great Pyramid and Egyptian magic
- \* A profound mathematical metaphor in ancient Hermetic and Neoplatonic texts with ties to Egypt
- \* The exciting pyramid power research of Flanagan, Parr, and the Russians
- \* A topological metaphor of creation in ancient Hermetic and Neoplatonic texts
