Community/Public Health Nursing: Promoting the Health of Populations Mary A. Nies, Melanie McEwen

Covering the nurse's role in promoting community health, **Community/Public Health Nursing, 6th Edition** provides a unique 'upstream' preventive focus and a strong social justice approach in a concise, easy-to-read text. It shows how you, as a nurse, can take an active role in social action and health policy - especially in caring for diverse and vulnerable population groups. Written by community health nursing experts Mary A. Nies and Melanie McEwen, this book offers clinical examples and photo novellas showing how concepts apply to the real world, and describes the issues and responsibilities of today's community and public health nursing.

- **UNIQUE! 'Upstream' preventive focus** addresses factors that are the precursors to poor health in the community, addressing potential health problems before they occur.
- **UNIQUE! Emphasis on *community* aspects in all steps of the nursing process** highlights the community perspective in all health situations.
- **UNIQUE! A 'social justice' approach** promotes health for all people, including vulnerable populations.
- **UNIQUE! Photo novellas** use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles.
- **Research Highlights boxes** show the application of research studies to the practice of community nursing.
- **Clinical examples** offer snippets of real-life client situations.
- **Case Study: Application of the Nursing Process feature** presents practical and manageable examples for the theory, concepts, and application of the nursing process.
- **Ethical Insights boxes** highlight ethical issues and concerns that the community/public health nurse may encounter.
- **Objectives, key terms, and chapter outlines** at the beginning of every chapter introduce important concepts and terminology.
- **NEW and UNIQUE! Veterans' Health boxes** present situations and considerations related to the care of veterans.
- **UPDATED Economics of Health Care chapter** addresses the latest changes related to health care reform.
- **UPDATED Healthy People 2020 boxes** include the most current national health care objectives.
- **UPDATED Communicable Disease chapter** covers current public health surveillance and outbreaks of emerging health threats, including emerging infections (e.g., H1N1, SARS, West Nile virus).

You could spend your free time to learn this book this e-book. This Community/Public Health Nursing: Promoting the Health of Populations is simple to develop you can read it in the park, in the beach, train in addition to soon. If you did not include much space to bring often the printed book, you can buy typically the e-book. It is make you better to read it. You can save the book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

Merlin Doyle:

As a pupil exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to

reach Chinese's country. So , this Community/Public Health Nursing: Promoting the Health of Populations can make you sense more interested to read.
