Septuagint Vocabulary: Pre-History, Usage, Reception (Society of Biblical Literature Septuagint and Cognate Studie) Bons, Eberhard, Joosten, Jan

This volume discusses problems related to the vocabulary of the Septuagint, the Greek translation of the Hebrew Scriptures. The background of the words in Greek literature, their use in the translation, and their later reception in Jewish and Christian writings, including the New Testament, are studied on the basis of concrete examples. The discussion shows how religion and theology can affect the meaning and usage of words and how, conversely, the use of specific words can have an impact on the understanding and interpretation of Scripture.
