## In Detail

The demand for Mobile in the Enterprise has never been greater. While meeting this demand is becoming increasingly business critical, the complexities of development are amplified by the explosion in the number and variety of devices and platforms. Appcelerator's Titanium Mobile Platform stands out for its rapid development speed, large number of APIs, and focus on providing a native experience. This ability to rapidly provide business value in a cross-platform way makes Titanium a compelling platform for the creation of Enterprise applications.

Appcelerator Titanium Business Application Development Cookbook is your complete guide to creating business applications. From building a unique user experience to securing your application, this book covers every aspect of business application development.

Beginning with a discussion of design patterns, the practical recipes in this cookbook progress through different topics required for Enterprise cross-platform mobile development. Each recipe is a self-contained lesson that can be used in creating apps for your organization. With Appcelerator Titanium Business Application Development Cookbook learn how to work with data on the device, create charts and graphs, and interact with various web services. Later recipes discussing application security and native module development help provide additional resources to accelerate your next Titanium mobile development project.

## Approach

Appcelerator Titanium Business Application Development Cookbook is a high level and practical Cookbook, packed with easy to follow, task-based recipes to ensure you hit the ground running!

## Who this book is for

This book is for the JavaScript developer looking to explore mobile or existing Enterprise developers looking to increase their app development velocity by harnessing the cross-platform power of Titanium mobile. The comprehensive recipes and tutorials assume you have a basic understanding of both JavaScript and the Titanium mobile SDK.
