## **Fragmented Mentalities** Markell D Thomas

The story of a boy transitioning into a man while battling adversities and uncertainties along the way. Back in 1997, Broderick Taylor is at a crossroads in life. His reality involves illegal endeavors that leave him unfulfilled and disillusioned. He does not see a viable future for himself if he continues to exist the way he is living. In order to escape his circumstances and to reach his full potential, changes have to take place. Unfortunately, the past has a way of following those trying to escape it at the most inopportune times. Now he's facing the pressures of leaving that treacherous life behind him for good, and becoming the man he is destined to be. At the waning point of adolescence and the dawning of adulthood, maneuvering these years effectively is critical for his future. Can he succeed, or will he become a victim of his own doing?
