## ***Parenting from the Inside Out by Dr. Daniel Siegel***

How many parents have found themselves thinking: I can't believe I just said to my child the very thing my parents used to say to me! Am I just destined to repeat the mistakes of my parents? In *Parenting from the Inside Out*, child psychiatrist Daniel J. Siegel, M.D., and early childhood expert Mary Hartzell, M.Ed., explore the extent to which our childhood experiences actually do shape the way we parent. Drawing upon stunning new findings in neurobiology and attachment research, they explain how interpersonal relationships directly impact the development of the brain, and offer parents a step-by-step approach to forming a deeper understanding of their own life stories, which will help them raise compassionate and resilient children.

Born out of a series of parents' workshops that combined Siegel's cutting-edge research on how communication impacts brain development with Hartzell's thirty years of experience as a child-development specialist and parent educator, *Parenting from the Inside Out* guides parents through creating the necessary foundations for loving and secure relationships with their children.

## ***Little Big Minds by Marietta McCarty***

A guide for parents and educators to sharing the enduring ideas of the biggest minds throughout the centuries—from Plato to Jane Addams—with the "littlest" minds.

Children are no strangers to cruelty and courage, to love and to loss, and in this unique book teacher and educational consultant Marietta McCarty reveals that they are, in fact, natural philosophers. Drawing on a program she has honed in schools around the country over the last fifteen years, *Little Big Minds* (a *New York Times* extended list bestseller) guides parents and educators in introducing philosophy to K-8 children in order to develop their critical thinking, deepen their appreciation for others, and brace them for the philosophical quandaries that lurk in all of our lives, young or old.

Arranged according to themes—including prejudice, compassion, and death—and featuring the work of philosophers from Plato and Socrates to the Dalai Lama and Martin Luther King Jr., this step-by-step guide to teaching kids how to think philosophically is full of excellent discussion questions, teaching tips, and group exercises.
