## **The Southern Albatross** Rosalie Beck

This collection of essays by eight historians—along with an epilogue by noted scholar Donald G. Mathews—not only expands historical investigation of race and ethnicity in the South in fresh directions, but also dissects more thoroughly some traditional aspects of the topic. Addressing subjects from the 1830s to the 1990s, all of the essays underscore the constant struggle to define and redefine ethnic boundaries and etiquettes to match changing historical circumstances.
