Who Is Today?: Life with my mother, her dementia, and our healthcare system A. J. Harvey

Who Is Today? is the bittersweet story of my journey with my mother into the darkness of her dementia (most likely Alzheimer's disease), through the shocking holes and unexpected roadblocks in our healthcare system, to finally a safe and nurturing place for her. This book is of value to both families of dementia patients, and healthcare professionals interested in understanding patients and their families as full human beings, rather than merely their daily problems and obstacles.
