Ligand Design in Medicinal Inorganic Chemistry

Tim Storr

Ligand Design in Medicinal Inorganic Chemistry Tim Storr

Increasing the potency of therapeutic compounds, while limiting side-effects, is a common goal in medicinal chemistry. Ligands that effectively bind metal ions and also include specific features to enhance targeting, reporting, and overall efficacy are driving innovation in areas of disease diagnosis and therapy.

Ligand Design in Medicinal Inorganic Chemistry presents the state-of-the-art in ligand design for medicinal inorganic chemistry applications. Each individual chapter describes and explores the application of compounds that either target a disease site, or are activated by a disease-specific biological process.

Ligand design is discussed in the following areas:

- Platinum, Ruthenium, and Gold-containing anticancer agents
- Emissive metal-based optical probes
- Metal-based antimalarial agents
- Metal overload disorders
- Modulation of metal-protein interactions in neurodegenerative diseases
- Photoactivatable metal complexes and their use in biology and medicine
- Radiodiagnostic agents and Magnetic Resonance Imaging (MRI) agents
- Carbohydrate-containing ligands and Schiff-base ligands in Medicinal Inorganic Chemistry
- Metalloprotein inhibitors

Ligand Design in Medicinal Inorganic Chemistry provides graduate students, industrial chemists and academic researchers with a launching pad for new research in medicinal chemistry.

From reader reviews:

Erica Rawlins:

Here thing why that Ligand Design in Medicinal Inorganic Chemistry are different and trustworthy to be yours. First of all reading a book is good but it really depends in the content of computer which is the content is as tasty as food or not. Ligand Design in Medicinal Inorganic Chemistry giving you information deeper and in different ways, you can find any publication out there but there is no e-book that similar with Ligand Design in Medicinal Inorganic Chemistry. It gives you thrill reading journey, its open up your own eyes about the thing that happened in the world which is might be can be happened around you. It is easy to bring everywhere like in area, café, or even in your approach home by train. In case you are having difficulties in bringing the imprinted book maybe the form of Ligand Design in Medicinal Inorganic Chemistry in e-book can be your alternative.

William Holt:

The book Ligand Design in Medicinal Inorganic Chemistry has a lot of knowledge on it. So when you make sure to read this book you can get a lot of help. The book was published by the very famous author. Tom makes some research prior to write this book. This specific book very easy to read you can get the point easily after perusing this book.

Sandra Davis:

Ligand Design in Medicinal Inorganic Chemistry can be one of your beginning books that are good idea. We recommend that straight away because this publication has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining but nonetheless delivering the information. The copy writer giving his/her effort to put every word into satisfaction arrangement in writing Ligand Design in Medicinal Inorganic Chemistry yet doesn't forget the main point, giving the reader the hottest and based confirm resource facts that maybe you can be certainly one of it. This great information can easily drawn you into completely new stage of crucial considering.

Patricia Coburn:

With this era which is the greater man or woman or who has ability to do something more are more valuable than other. Do you want to become one among it? It is just simple approach to have that. What you are related is just spending your time very little but quite enough to have a look at some books. On the list of books in the top list in your reading list is actually Ligand Design in Medicinal Inorganic Chemistry. This book that is certainly qualified as The Hungry Mountains can get you closer in turning into precious person. By looking way up and review this book you can get many advantages.
