**We are such volatile creatures that we finally feel the sentiments we feign.**

First published in 1816, *Adolphe* is the story of a young man with all the privileges and advantages of a noble birth, but who's still haunted by the meaninglessness of life. He seeks distraction in the pursuit of the beautiful, but older and married Ellenore, a fictionalized version of Madame de Stael. The young Adolphe, inexperienced in love, falls for her unexpectedly and falters under the burden of the illicit love.

Nonetheless, it is a form beloved and practiced by literature's greatest writers. In the Art Of The Novella series, Melville House celebrates this renegade art form and its practitioners with titles that are, in many instances, presented in book form for the first time.
