**Liquid Hydrocarbon Tank Fires, 2006 Edition (BP Process Safety Series) - IChemE** BP Safety Group  
Hydrocarbon tank fires have proved to be very demanding emergencies due to their size and duration. This latest edition has been expanded to incorporate recent findings from past incidents. This guide is intended for those operators, engineers and firefighters working on, or near, tank farms so that they are aware of the potential emergencies and their consequences and are able to adopt safe designs and practices to minimize the occurrence of such incidents. This latest edition includes a new appendix Learning from past accidents.

IChemE, the Institution of Chemical Engineers, is the center for chemical, biochemical and process engineering professionals worldwide.

We are the heart of the process community, promoting competence and a commitment to sustainable development, advancing the discipline for the benefit of society and supporting the professional development of members.

Some of the areas we publish in include:

- Safety in the process industries - the BP Process Safety series
- Consultancy for chemical engineers
- Project management in the process industries
- Contract management in the process industries - International Forms Of Contract series
- Communication skills for engineers
